

DIVERSITY, EQUITY and INCLUSION STATISTICS

2024 Bloomington Arts Grant Application

Organization Name:

Fiscal Year Period:

The City of Bloomington is committed to racial equity in the design of our services and programs. One programmatic goal of our services and programs is to collect, track, and analyze the racial demographics of residents utilizing City programs and receiving services. Racial demographic data collection will help to provide the City a picture of how programs and services are currently engaging Bloomington's BIPOC community (Black, Indigenous, People of Color), and how this engagement changes over time. This data will help the City develop strategies to eliminate racial disparities in the City of Bloomington including, but not limited to, inequitable access and opportunity in housing, employment, education, recreation and arts and cultural opportunities.

As a part of this City Grant application and reporting processes, applicants and recipients are asked to report on the diversity, equity and inclusion statistics (D.E.I.) for their groups/organization in regards to three areas; 1. Audience and participants (individuals participating in performances, programs, events, activities and services), 2. Board members and employed artists, contractors and staff, and 3. Overall participation estimates for Bloomington and non-Bloomington residents.

The City will measure progress in racial equity of our programs and services through each Departments/Divisions tracking service data disaggregated by race and other demographic information.

PART 1: AUDIENCE AND PARTICIPANTS

AUDIENCE AND PARTICIPANTS: Please provide statistics on the audience and participants served through your performances, programs, events and activities. Please list actual participant numbers, and percentages for data collection and comparisons.

GEOGRAPHIC AREAS SERVED (By MN Counties)
